SUMMARY

As a dedicated Full Stack Developer and Junior Technical Team Leader, I bring a demonstrated history of success in leading high-impact projects and fostering innovation. With a focus on collaboration and out-of-the-box solutions, I have successfully delivered projects that drive technology advancements. Thriving in challenging environments that fuel continuous learning, I have contributed to the growth of my team by leveraging my expertise in areas such as project scalability and deployment efficiency. For instance, I led teams of up to 7 members, resulting in a significant reduction in task planning time by 80%.
